Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

1. Claims 12-14, 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 12, the phrase "either or both of the upper plate and the first and second side walls" render the claim alternative and indefinite. Applicant should refrain from using alternative terminology such as "either or both" in the claim language.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2,4-5,7-8, 10-13, 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Moren et al. (US 6,142,304). Moren et al. discloses a lower plate, two side plates and a first and second auxiliary side walls 70L extending from the respective end of the first side wall. A cover or upper plate 140 may be integrally formed with either of the packing apparatus 10 and 100. Each of the lower plate, side plates and upper plate has a plurality of fixing jaws, for example, 36,70S,152. A plurality of projections and grooves are formed on the surfaces.

4. Claims 3 and 14 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over anticipated by Moren et al. Moren et al. discloses a plurality of projections (for example 42,44 and what is shown in Figure 11 between the ribs on 70S,70L and the raised projection on the top portion of 70S and 70L), having

Art Unit: 3728

alternating step shape. In the event that the configuration is not a step shape, it would have been obvious to provide any of variety of shape for the ribs since they perform equivalent function.

5. Claims 1,4,5,7-8,10 are rejected under 35 U.S.C. 102(b) as being anticipated by Redden et al. (US 6,345,720). Redden et al. discloses a lower plate 20, two side plates 30 and a first and second auxiliary side walls extending from the respective end of the first side wall. A cover or upper plate 40 is integrally formed with the side walls. Each of the lower plate, side plates and upper plate has a plurality of fixing jaws. The fixing jaws are the walls surrounding each grooves.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 6 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moren et al. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the packaging out of resin, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416..

Conclusion

8. Telephone inquiries regarding the status of applications or other general questions, by persons entitled to the information, should be directed to the group clerical personnel and not to the examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners, M.P.E.P. 203.08. The **Group clerical receptionist number is (703) 308-1148** or the **Tech Center 3700 Customer Service Center number is (703) 306-5648**.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Donna Monroe at (703) 308-2209.

For applicant's convenience, the Group Technological Center FAX number is (703) 305-3579 or (703)305-3580. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify Examiner Luong of Art Unit 3728 at the top of your cover sheet of any correspondence submitted.

Inquiries concerning the merits of the examination should be directed to Shian Luong whose telephone number is (703) 308-2039. The examiner can normally be reached on T-F from 7:00am to 4:00pm EST.
